Divine Life Path

Notes for divine life path

There's a life path unique to you, created for you to follow, that will allow you to live in an optimum way. It's part of the book of life. It's divine will. It's part of the bigger sacred plan. It intertwines with universal order. This is your divine life path.

Your divine life path is where you embody your true spiritual powers, capabilities, gifts, and transformation and maintain a spiritual view and heightened awareness of your divine identity and higher purpose. You rise here into being a divinely guided and empowered conduit.
